Algiers, Algeria | +213667009243 | [bilal.bentoumi@gmail.com](mailto:bilal.bentoumi@gmail.com) | [linkedin.com/in/bilalbentoumi](https://www.linkedin.com/in/bilalbentoumi)

## PROFESSIONAL SUMMARY

Results-oriented software engineer with expertise in designing, developing, and optimizing scalable applications across web and mobile platforms. Proficient in full-stack development, including front-end frameworks (React, Angular), backend technologies (Node.js, PHP), and database management (MySQL, MongoDB). Skilled in collaborating with cross-functional teams to translate business requirements into impactful, high-quality solutions. Known for analytical problem-solving, attention to detail, and dedication to code quality and performance optimization. Passionate about leveraging new technologies and industry best practices to deliver innovative solutions that enhance user experience and drive business success.

## TECHNICAL SKILLS

**Languages :** PHP, JavaScript, TypeScript, SQL (MySQL), JSON, HTML, CSS, Sass

**Frameworks: Languages :** ReactJS, React Query, Material UI, Redux, Rest API, ExpressJS, NodeJS, JQuery, GraphQL

**Others :** Agile(Scrum), SOLID, Design Patterns, Debugging, Root Cause Analysis

## EXPERIENCE

### Software Engineer | Talenteo

Jun 2022 – Present

- Developed a SaaS HR application to manage, centralize, and secure employee data, tracking working hours, leave, and attendance, contributing to its expansion to over 50 clients as part of a 10-member team.
- Designed visually appealing, responsive UIs with Material UI, adhering to Google's Material Design, achieving a 25% increase in user engagement.
- Integrated React applications with backend APIs using RESTful principles, enabling efficient data handling and enhancing user experience.
- Refactored and maintained legacy code using design patterns and SOLID principles, resulting in a more robust, scalable system and a 40% reduction in bug fixes.
- Optimized MySQL queries, reducing query response times by 30%, and enhancing application performance.
- Resolved critical bugs and addressed user-reported issues, achieving an 80% reduction in bug reports and boosting system reliability.
- Implemented a queuing system using Redis and PHP workers for background task processing, enhancing overall system responsiveness by 30%.

### Full-Stack Web Developer | Emplotic

Sep 2020 – Jun 2022

- Developed dynamic and responsive functionalities using HTML, CSS, JavaScript, PHP, and MySQL, enhancing application interactivity and user engagement.
- Collaborated closely with QA teams to identify and resolve bugs, improving application stability and performance by reducing defect rates.
- Partnered with UI/UX designers to create intuitive and visually appealing user interfaces, resulting in a 35% increase in customer satisfaction and engagement.
- Demonstrated strong adaptability and a proactive approach to mastering new technologies and tools, ensuring effective problem-solving and continuous skill enhancement.
- Followed Agile methodologies, including sprint planning, daily stand-ups, and sprint reviews, contributing to a 15% improvement in project delivery timelines and team alignment.

## EDUCATION

**Master's in IT & Networking**, University Mohammed Boudiaf of M'sila.

**Bachelor's in Computer Science and Engineering**, University Mohammed Boudiaf of M'sila.

## CERTIFICATIONS

**NestJS Official Course:** NestJS Fundamentals (cert\_4y09lx0m) - Mar 2024

## OTHER

**Languages:** English (professional), Arabic (native), French (intermediate).
